Declaration of the Use of Generative AI & Labor Statement

AI Use Statement

Generative AI may be used for specific and appropriate purposes in the writing process for this class. Students must honestly fill out and sign the following "Declaration of the Use of Generative AI" document for each major assignment. When you include AI-generated content (e.g. longer than 10 words) in your writing projects, you are responsible for providing appropriate citations.

Academic Dishonesty

According to UofL "Code of Student Rights and Responsibilities" (Section 5 and 6): The University of Louisville pursues excellence in its work to educate and serve its community with integrity. Academic dishonesty is prohibited at the University of Louisville because it diminishes the quality of scholarship, prohibits independent thought that is essential to intellectual growth and development, makes accurate evaluation of student progress impossible, and defrauds those in society who must ultimately depend upon the knowledge and integrity of the institution and its students and faculty.

Labor Statement

Within a class practicing the labor-based grading contract, you are responsible for recording your labor investment. In general, you should record and calculate how much time you have invested in completing this project.

AI Use Section	
What is this assignment about?	
Did you use AI for this writing project? (Yes/No)	
Which generative AI tool did you use (model and version)?	
What prompts did you provide?	
What did you use the tool for? Or what was your purpose in using AI for this project?	
How have you used or changed the generative AI's output?	
Labor Record	

How much time have you spent completing this assignment (including brainstorming, drafting, and revision)?	

Name : _____

Date:_____
